

CheckSafetyFirst

LEGIONELLA CONTROL

This is to recognise that

Aquis Vasia Beach

Has successfully implemented Legionella Control Management Principles.
This system is being managed on a daily basis and is providing significantly reduced risk from Legionella related illness.

Signed and dated August / 2010

Steve Tate
Chairman

This establishment is committed to providing guests with a safe environment.

Further it is our belief that only by managing risk in a structured way can we be sure of maintaining and increasing our standards over the long term. Our Environmental risk management programmes are designed to benefit our guests and provide them with a safe, enjoyable experience.
